

Report on Creaton Village website
by Jane Shanks

I look after the village website (www.creaton.org.uk) which includes the Parish Council pages where you will find links to the agendas and minutes of meeting as well as other information. We did have some technical issues in September but these have now been sorted and the website is working well. Apologies if you could not access pages during this period.

I do lack information from village organisations so if anyone wishes to provide dates/times of events or meetings that are happening in the village please let me have details and I will happily include them. These can be email to me at janeshanks54@gmail.com
