Dear Sir/Madam

4th GENERATION TERM CONTRACT FOR MANAGEMENT AND MAINTENANCE OF THE SCOTTISH TRUNK ROAD NETWORK – NORTH WEST UNIT A87 OB LUSA TO KYLERHEA (SKYE) – CARRIAGEWAY RESURFACING

BEAR Scotland, on behalf of Transport Scotland will be carrying out essential maintenance works on a section of the A87 trunk road on the Isle of Skye, 4 miles west of the Skye Bridge. Please find enclosed a location plan which details the extent of the works.

The works will follow immediately on from the currently ongoing programme of surfacing at Broadford, Ard Dorch and North of Kingsburgh and are likely to commence week commencing 7th November and take up to two weeks to complete. The resurfacing works will take place between the hours of 7am and 7pm each day, with no weekend working planned.

To ensure the safety of the workforce and members of the public the carriageway will be subject to traffic management, with traffic lights and a 10mph convoy system in operation during the aforementioned times. Out with working hours a 30mph speed limit will be in place to ensure vehicles can pass safely over the temporary surface.

BEAR Scotland and Transport Scotland wish to thank the local community for their patience during these essential works.

If you require any further information or would like to discuss the works further, please do not hesitate to contact Stuart Earl by email NWconsultation@bearscotland.co.uk.

Yours Faithfully,

Jamie Finlayson
Assistant Roads Manager
