

Local food deliveries....2017/18

Welcome to the community of local families that support what we do and enjoy great local and seasonal food delivered to their doorfresh from the croft!

We grow all our own produce here on our family croft at Knockfarrel, near Dingwall. It's fresh, it's tasty and it's certified as real organic food. We deliver to your home or office once every fortnight, throughout Mid and Easter Ross and the Black Isle, or you can collect from the croft.

How would you like to pay? Please tick one box. Sorry, but we don't take cash at deliveries.

Standing order – you instruct your bank (or we can send you a form) to automatically pay a set amount every month for your food . Good if you want the same order every delivery.

Top-up account – you give us £50 to start with, and we email you every 8 weeks to let you know how much you've spent and you top it up on-line. Good if you want to vary what you get each week.

What else would you like to add to your regular delivery?

For each item you would like to add to your delivery. We also send out an email a few days before your delivery to tell you what is in the veg box and what seasonal extras are available.
