

July 2015 Crime Figures

From Pc 1603 Howard Shinn:

You will see that during the month of July there were no reported crimes in Tollerton and only 1 in the Wolds area. There were some issues with regards to theft offences in the Upper Broughton area in the first part of the month. Part of the Police Priority Setting Group has set the Nevile ward and in particular, Upper Broughton, along with Keyworth as an area we will look to patrol more frequently. A mix of Crimes in Keyworth South, with no reported crimes in the Keyworth North Beat.

On a separate issue, I have been receiving complaints of vehicles speeding in many of the villages I cover. A number of local residents have told me that they have concerns about speeding vehicles in their village and the possible consequences of vehicles exceeding the speed limits.

As a result, over the past few months, I have asked the Mobile Speed camera vans to attend various locations which have been highlighted to me by residents.

The speed camera van attends a number of locations on a regular basis. A couple of locations in Tollerton, the A 606 at Stanton on the Wolds, Nicker Hill in Keyworth are just a few locations where they have found that vehicles are being driven exceeding the speed limit in force.

There are restrictions on where the speed camera van can be sited to operate, but where they find that there is a speeding issue and they can site the van, they will keep returning to that location, whilst ever there is a substantial speeding issue.

Further, I have also been successful in getting Police officers to attend less busy areas with a hand held speed gun on my area as part of a road safety operation that deals with Fatal four offences, namely Speeding, Drink Drivers, Mobile phone use and seat belt offences.

I appreciate that speeding is a very emotive subject, but I have responded to requests from a number of residents that live on certain roads where they feel there is an issue with speeding. I am also in the final part of offering a community road safety scheme to village residents. Briefly the scheme works by residents using equipment, loaned by the Police and partner agencies, which consists of mobile interactive signs and a hand held radar gun. The scheme and equipment is designed to have an immediate impact on the speed of vehicles in the area where the residents use the equipment.

A number of people have expressed an interest in using this equipment, with training input being carried out over the next couple of weeks.

All reports of crime should be made by using the 999 or 101 system to report the incident to the force control room. The beat team monitor all calls to the Police involving our area and we attend those incidents that we need to.
