Contestants comments:

Wolf DL6JZ Tnx for a fine contest again. May be this event would be more attractive if there would be a low power section. I think there are a lot of RTTYers who run 100 watts and less. I am not sure. But you can make a poll? (No, but thanks for the suggestion! Our contests only have rules that we can enforce ... in many tests with a low power class it is won by QRO stations anyway)

Bob ZL2AMI A great contest with plenty of support from all zones. The first contest to mark a pronounced drop in solar flux - a pointer to the years ahead. To my delight I worked all Continents in the first few hours. Thanks to BARTG for another good one. (Thanks for the support from ZL, Bob)

Bob 5B4AGN Thanks BARTG for a most enjoyable contest. The 30 from 48 hrs format is just great and leaves enough time to avoid completely obliterating the weekend's social calendar. I ran SO2R with 2 FT1000MP at 400W. Antennas were a Force 12 C31XR at 23m a Cushcraft XM240 at 27m and a delta loop for 80m. Logging and complete station control courtesy of Writelog. I'm already looking forward to next year. (Top effort from a good op in the right place with the right gear .. well done)

Jerry NO2T The first 15 hours was pretty bad. Never heard such weak and watery signals even from stateside. Saturday afternoon and evening condx got much better. The 2100 UTC hour produced the highest QSO count of the contest with 55 Q's. Had some chores to do during the prime time about 2400 Saturday. So took a break which cost me some important QSO's. Never could recover. See you all next year. 73

Phil GU0SUP Poor conditions to start with, and they only picked up a little later in the contest. It was hard work to pick up QSO's at times, but the continents were easy, especially as DP1POL had a go in the contest! Some very odd propagation at times, which made for some fun!

David W7DPW Great contest. Good band conditions, nice weather to be indoors

Pierre-Jean F6FJE My 2nd entry in this contest. Hope to be in the top 5 of SS80 category. (Nice 2nd place this time, Pierre-Jean.)

Contest Manager's Comments:

This year we saw the cyclical effect on propagation causing a general decline in scores, but there was still plenty of action to keep most entrants happy. Bob, 5B4AGN, managed to beat the trend and set a new record score in the expert class which will take some beating. Alex YO9HP, operated A45WD to win a close battle in the single operator class. There was more concentration of effort on the lower bands this year which increased activity and kept the scores high on 20, 40 and 80 metres. It was good to see all 6 continents worked on 40 metres and 5 found by our winner on 80 metres. Thanks to all who took part in the contest and have waited patiently for the results. The delay was due to personal difficulties of the contest manager (mainly the move to a hilltop QTH!), so please accept my apologies and don't blame BARTG! See you all in the BARTG Sprint 2004.
