Contestants comments:

The strong wind blew in Tokyo, the antenna was taken down. 15M were poor at sunspot minimum and 40M of the Monday morning were also dead. Therefore, Contest is still more interesting :-). Thank you very much. 73 Hisami 7L4IOU

I appreciate the class of 6h time limit. Christian DJ6AR

Great contest. Used a second RX to hunt for new ones while calling CQ on RUN frequencies worked a treat as about 9% of the QSOs came from the 2nd RX. Pity about conditions on the Sunday 40m closed very early. David G3YYD

Due to lousy conditions on Sunday, I only put in a total of about 14 hours. Lot's of new call signs seen, which is very encouraging. Highlight was working New Zealand on 40M with my low dipole on Saturday evening. Brian K7RE

Propagation Saturday very poor. Had to work hard for the QSO's. RF in the shack limited power on 40 meters . Did my best. Thank you for holding a good test. Also thanks to those who gave me QSO's after many repeats. Jerry N02T

Lots of new calls this contest. Finally got the new rig figured out. Apologies to those who ran into my fat fingers. Thanks to everyone for the contacts. Paul VA3PC

Condx made it very challenging to copy the rather long contest exchange! With no propagation on 10M and next to non on 15M, everyone crowded onto 20M which made it a real delightful experience. 80M extremely QRN both nights. Thanks for all the QSO's and my apologies to those who were calling on 80M that I was unable to pull out of the noise. In hindsight, I should have taken time to string out the Beverage. CU all next time. Barry W3FV

Band conditions provided an interesting challenge during most of the contest with multipath being a challenge during much of first day. BYRON W3WKR

Thanks BARTG for another wonderful contest experience. Looking forward to the 2007 contest season with changes in store for this station. Thanks to everyone and 73'.....Fred WW4LL

Thanks to all concerned in running the contest. Hope to see you next year, but it is getting harder to compete against the S02R men. Perhaps you would consider putting in a S01R Category because if I cannot compete with my callsign then there is little hope for others. Steve ZC4LI

First contest from new QTH, in the valley of -1000 DB. No more high towers just a HF6V-X at ground level between the houses, still good to be back and we had fun. Dave ZS6RVG

First RTTY contest in quite a long time - enjoyed it immensely. Limited by having to use the backup antenna (R6000 vertical), so primarily a 20/15/10M effort. No Europeans were copied here with the condx (and antenna), but finally

worked TY5MR on 20M (with several repeats necessary - tnx Andrea! Looking forward to the next contest! Thanks to BARTG, and to all those that provided me Q's. Jim WA7SLD

Thanks for inviting the SWLs.I enjoyed the contest. See you all again next time.
Brian ZL200SWL

Contest Manager's Comments:

The big change this year was the introduction of the SOAB 6 hour class and it proved very popular, with 39 stations taking part. The tactics for a good score in this limited time are completely different from conventional contest practice. The top 4 stations worked at rates of 45+ QSOs per hour, while moving around enough to find 95-100 multipliers in 6 hours ... a brilliant performance. After much careful log checking Jim AD6WL came out on top, with the next 3 stations only separated by the points from a single QSO! That's top contesting.

Elsewhere 7X0RY chose to enter the expert class (thanks) and won comfortably. A good operator with that rare call is hard to beat but UW8I was not far behind. A similar situation in SOAB saw CN8KD on top. Other highlights included the 1.5M+ score from the improving team at WW4LL, a good win by VE2RYY on 20 metres and a sudden insurge of SWLs from the Southern hemisphere!

Thanks to all who took part and made our contest such a success again. See you all next year.

Vy 73,

John Barber GW4SKA
BARTG Contest Manager
