### Contestants comments:

Lot's of issues here; some of them self inflicted. The 6 hour category is a tough one to figure out which bands to work when and I definitely made some bad calls. There seemed to be a lot of activity and a lot of new calls. All in all a fun contest ... Jim AD6WL

This was my first time in the contest, but it certainly won't be the last. Many new callsigns were added to the log and even a couple new DXCCs ... PATRICK AE5PW

Participating just to fill one rainy week-end and returning to my old love: Contests! ... Luis CT4NH

This was my first attempt at the BARTG RTTY. Operated with modest equipment (60W and a Long Wire antenna). Some stations calling CQ with booming signals, especially from the USA, were obviously unable to hear (decode) the calls of my low-power station. Nevertheless I had a lot of fun with this nice contest and I'm certain I will join again next year. Lets all hope there will be a couple of sunspots in 2010 ... Roland DL1EAL

First time with full SO2R although ones of those was without a linear. Was using 3 RXs on Sunday evening to maximise QSOs. Conditions favour stations further south than here at almost 52 degrees north of the equator. Roll on those Sunspots! ... David G3YYD

The bands were a bit below the typical that has been seen in the recent RTTY contests. Fortunately, the bands were quiet other than at the end of the Contest. Still had a number of surprises on 20 meters with some loud signals from E21, 9M6, VU2, etc. How about some Sun Spots next year? ... Mike K4GMH

First time ever being on RTTY, let alone running a contest in RTTY. This was a good contest to break in on. Thanks to locals K6ST and W6EU for helping me to get set-up. Bands were fair, other than no activity on 15m. Got a reasonable run of JA's Saturday afternoon which was a gas. Not much late night activity, had to bounce between 80m and 40m as I kept working the band out between running and S & P efforts ... Bob K6NV

A glimmer of activity on 15 meters! Maybe just Maybe a swing in the cycle! ... Ronald N3CHX

Didn't get going in earnest till midday Saturday. Ended up operating as Multi Single because my YL couldn't stand not to have seat time in front of the radio so we split the duty... Bands weren't all that great but we did get some good mults. Thanks for the fun and all the QSO's ... WB6BFG ~ Wild Bill & N6UWW ~ Ellen

I've always like the BARTG. It's one of my highest priorities of the contest year. This BARTG was my first attempt at using SO2R. As the contest wore on I got better and became much more accustomed to the routine. It was lots of fun. Thanks to everyone for the Q's and to the BARTG for putting on a great contest ... Tom WX4TM

Very bad propagation here, high noise level, many PSE RPT, sorry. Thanks for all for nice contest QSO. Hope cuagn next time in better condx ... Karoly YU7AE

Contest Manager's Comments:

Poor conditions were found by most of our 2009 entrants and for the first time in several years the total log count of 662 was down on the previous year, by about 12%. The exception was in the 6 hour class which had more entries and a higher winning score. This is a specialist class to win; 9A7R managed to run at an average rate of 57 per hour and still find 128 multipliers .. a very good effort when only 3 bands are usable. The winning scores on the higher single bands were much the same as 2008, but much more concentration on 80 metres saw S53S win with a score of more than double the 2008 best. Multi-Single again went to OL3Z and a fine entry from the Brimham Contest Group G6MC took the win in Multi-Multi.

Congratulations to all our winners and thanks to all who took part. I hope you come back next year.

Vy 73,

John Barber GW4SKA  
BARTG Contest Manager
