Contestant's comments:

Congratulations to BARTG for abandoning the necessity of "599". This was a historic decision! I hope it will become standard in the future. Why do we need a choice of some 600 different signal reports if all we want to say in a 10 second RTTY contact is "can print you"? 73 - Gerd V31YN/DJ4KW BARTG #25 and YL Gisela V31GW/DK9GG

First time in sprint. Had a blast! Wish I could have spent more time at it ... Nathan KF9LI

2nd time I have entered & still all mechanical. The Siemens T100ASR MkII seems to cope vy well. Looking forward to next year & more time on air .. Alan M3GOJ

Finally got up the nerve to do some CQing instead of S&P and wouldn't you know it, when tuning the rig, I hit the attenuator switch by mistake. Well I did work everyone I heard! Thanks to ZL2AMI for hanging in there to give me my 6th continent, and AH6OZ to make sure.. See you next year! Thanks to everyone who participated! ... Paul VA3PC

Enjoyable contest. Only operated part time in this one. Noticeable lack of EU stations. High winds through the day kep me from cranking tower to its full height. Still had a very good time and nice to see al the regulars and the new calls on the air. 73 ... Russell N6EU

I am Andrew's (M5AEX) son. I am 11 years old and have only been licensed a few months. I only made 2 contacts in the contest because my Dad insisted on taking me all the way from Milton Keynes to Bath to watch our team play in a rugby match and then we spent some time talking about RTTY and learning to use the

RTTY programs. Also, my Dad wanted to use the station too. So, not much operating. 73 Leo M3DXL

A challenging contest this year with conditions an indicator for the next few years. However I was pleasantly surprised to end up with a better score than last year, even though I could not find Africa for the 6th Continent. Thanks to John and BARTG for the Contest and it's clever format ... Bob ZL2AMI

BARTG Sprint 2003 was a very enjoyable event. Propagation was good on 7 and 21, acceptable on 14 and poor on 3.5 MHz. 28MHz saw little activity, although there were some openings. I was surprised to receive calls from ZL2AMI, ZL2BR & VK4UC on Sunday morning, when I thought I would finish with only 5 continents. Highlights: five QSOs with GOURR and UA4FCO .. Costas SV1XV

Fun contest, 100w to a 20M dipole laying on a flat roof 15 feet above ground, and a Hustler 40M mobile resonator on a mag mount on a sheet pan stuck out the window. Very cool to work W7WW on 4 bands with this setup. Apartment living doesn't allow any permanent outside antennas, glad to make as many Q's as I did. Tnx to all Jonathan K9JS

Contest Manager's Comments:

It was good to see another big increase in entries despite the generally poor conditions in this year's contest. For the first time we received over 400 logs for the Sprint, many of them from first time entrants attracted to RTTY by the accessibility of sound card software. Overall scores were well down on last year but the competition was still fierce. Both the single operator winners in 2002 were European and this year George W1ZT and Scott VE1OP struck back for America. George worked hard for a convincing win in the Expert class, while Scott took a close victory in the single op class after much careful checking of the top logs. Another very close contest in Multi-op saw UP60SB come out on top, operated by some familiar calls, UN5PR UN6P and UN7PBY. The SWL class also had more entries this year and was easily won by Vilmantas LYR-794, operating from the same college radio club as LY3BH. Congratulations to all the winners and thanks to everyone who took part in what is now one of the big RTTY contests of the year.
