

August 2015 Crime Figures

From Pc 1603 Howard Shinn:

Crime figures for August 2015 are quite low compared to earlier in the year.

It has pleasing to see that there have been a number of calls to the Police on 101 reporting suspicious activity, which have resulted in arrests being made and potentially preventing offences or further offences being committed.

Beech Avenue Neighbourhood Watch in Keyworth is now up and running with enthusiastic members. I am hopeful that through their work, they can be instrumental in keeping crime down and providing advice and support to local residents in their area.

Without wishing to end the summer months, the darker nights are not too far away, please take the time over the coming weeks to look at installing security lighting or CCTV cameras and ensure that sheds and outbuildings are secure. As always ensure vehicles that have to be left outside are secure and all valuables removed.

I am aware that across the country livestock are being stolen; you will see that there was such crime at Willoughby on the Wolds last month. Please be vigilant and record the registration numbers of any vehicles that you may see taking livestock from fields and report this to the Police as quickly as possible. A quick check by us on the Police National Computer will enable us to highlight if the vehicle is local or likely to be committing theft.

As always please be vigilant to suspicious incidents or people in your area and report to the Police on 999 or 101.

All reports of crime should be made by using the 999 or 101 system to report the incident to the force control room. The beat team monitor all calls to the Police involving our area and we attend those incidents that we need to.
